## WALTHER CCP

← The new Walther CCP (Concealed Carry Pistol) is designed for the concealed-carry market and comes loaded with outstanding features. This compact-sized, 9mm, striker-fired, polymer-framed pistol has an accessory rail and features an eight-round, single-stack magazine, making the pistol very thin. A unique internal gas piston system reduces recoil and increases comfort and shot-to-shot accuracy. For more information, visit [waltherarms.com](http://waltherarms.com) or call 479-242-8500.

## WINDHAM WEAPONRY RP11SFS-7

→ Windham Weaponry is stepping up to answer the call for the growing popularity of AR pistols with its own new design, the RP11SFS-7. The pistol features a full-length Picatinny rail on top with a KeyMod handguard and a chrome-lined, 11.5-inch, heavy barrel. The pistol buffer tube includes a foam sleeve for comfort. For more information, visit [windhamweaponry.com](http://windhamweaponry.com) or call 855-808-1888.

## WMD MODEL 11.1

→ The folks at WMD Guns are experts at coating firearms with the most advanced finishes and treatments, and the company has also been producing firearms. The latest example is the new Model 11.1 pistol, a full-sized 1911 that features an ambidextrous safety and is fully coated in NiB-X nickel-boron and their Nitromet nitride process. It is available in different styles with different coating combination and grips. For more information, visit [wmdguns.com](http://wmdguns.com) or call 772-324-9915. ■
